

Preliminary Programme

17th-19th October 2019

Biennial Meeting on
Facial rejuvenation

EASAPS

OLD ST JAN CONVENTION CENTRE
BRUGES - BELGIUM

Please inform all of your colleagues about the opportunity to share and compare all aspects of facial rejuvenation during this important event which is targeted to all colleagues interested in the field of aesthetic surgery of the face. The meeting is structured to offer interesting lectures for both young surgeons and those with more experience. This is important to promote the EASAPS vision to convey and work for European education and training within our plastic surgical specialty. We would especially like to invite our younger colleagues to take part. We strongly believe that a European network strengthens our specialty in times of unclear regulation in many countries.

All invited lectures on facial plastic surgery and rejuvenation by the expert faculty members will focus on long-term results, patient safety, refinements of techniques as well as management of complications and adverse events. The faculty will soon be announced.

According to EASAPS rules, we will also invite all member societies to submit the best presentation held at their National annual meeting to be part of the "Voice of Europe" session.

Young specialists in plastic surgery or those in the last year of residency are also invited to submit an abstract on facial plastic surgery. The best presentation of them will be awarded with a fellowship in aesthetic plastic surgery.

We hope to see you in October 2019!

*Chair of Scientific Committee EASAPS
Birgit Stark*

As EASAPS president I am honoured that the 2019 EASAPS meeting will be held in Bruges. It will be a pleasure to meet you in one of the most beautiful cities in the world, in the country that is my home. We will be able to spend a few days focusing on our speciality, but we also have the opportunity to catch up with old friends and make new connections that will allow us all to build a strong network in our speciality.

The purpose of EASAPS is to serve our member societies and European aesthetic plastic surgeons and promote the European spirit.

Looking forward to meeting you all in Bruges

*EASAPS President
Ivar van Heijningen*

THURSDAY, OCTOBER 17, 2019

Pre-conference Courses and Workshops

1st ISAPS Resident and Fellow Congress

EASAPS Pre-course Workshops:

Fillers and their complications
Anatomy of the forehead, face and neck
Regenerative Medicine
Threads

EASAPS Pre-course Masterclasses:

The difficult neck reoperation, indication solution of problems recurrent bands
Lower eyelid rejuvenation, algorithm for type of surgery, longevity, deal with complications
Midface rejuvenation, longevity of results, indication for type of surgery
Debate on non surgical rejuvenation: heat vs cold
Fillers

19:00 Welcome Reception in the Exhibit Hall

Join us to meet colleagues and exhibitors. Make new friends!

FRIDAY, OCTOBER 18, 2019

08:45-09:00 Welcome: President of EASAPS Ivar van Heijningen
