

Dear colleague,

we are very pleased to inform you that **EASAPS** has made a lot of progress recently and the interest from many **National Societies for Aesthetic Plastic Surgery** has grown. Our goal is to unite all the European Societies and be the voice on many different aspects that are vital to all of us.

We will be discussing regulations, VAT and insurance issues, finding a training programme that allows all Residents to qualify with the same level in all the different countries.

Patients safety is also a topic that is very important to us and we are determined to find a way to address this issue so that every patient in every country is protected in the same way by means of information and regulations.

We are planning the first EASAPS strategic planning meeting in **Paris, February 3rd 2018**, and invite you as the President of your association to join us to be able to work with the dedicated committees on these issues.

If you are not able to join us, then please delegate someone from your association to represent your country.

Best regards,

Ivar van Heijningen
EASAPS President
