

Dear EASAPS Member Society

Education is one of the priorities of the European Association of Societies of Aesthetic Plastic Surgery and we would like to be in contact with all Residents of the National Societies members of EASAPS.

On behalf of the EASAPS Residents and Fellows Committee, I would like to kindly ask if you could send us the following information: whether there is a **Plastic Surgery Residents Association** of your National Society and if you could please share the contact of the **Residents delegate** (e-mail or phone number).

Thank you very much for your time and consideration.
If you have any question, do not hesitate to contact me.

Kind regards,

[Íris Brito](#)
